

Accelerate Patient Payments. Get Paid *Faster!*

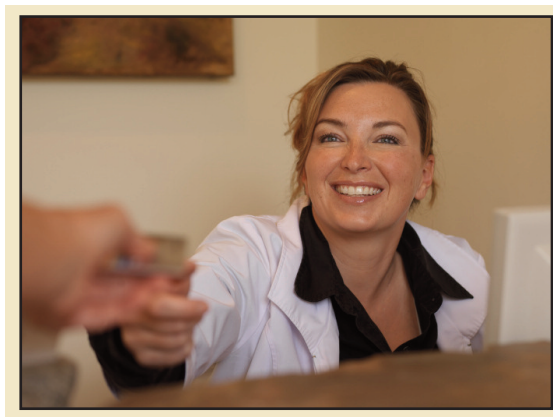

*Process Patient Payments Seamlessly
Through Dentisoft Office Online*

Start increasing cash flow, reduce your practice's collection efforts, and increase patient satisfaction.

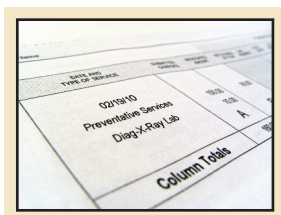

Introducing a fast, easy-to-use payment processing feature that lets you offer your patients a variety of payment options, set-up automated recurring payment plans and keep a credit card on file for future payments – all integrated with Dentisoft Office Online!

Dentisoft continues to look for ways to help dental practices save time, money and improve overall office efficiency. With payment processing tools integrated with Dentisoft Office Online, you'll be able to manage patient payments more quickly, securely and affordably. Implementation is quick and seamless.

Using the Integrated Virtual Payment Terminal, Your Practice Can:

- Optimize workflow when processing patient payments
- Process major credit and debit cards (VISA®, MasterCard®, American Express® and Discover)
- Convert paper checks to electronic funds transfers – no more trips to the bank for deposit
- Set up automated recurring payment plans eliminating the need to send periodic statements to your patients, saving staff time and money
- Securely store patient's credit card information with authorization to use for future transactions and billing
- Eliminate the need for a separate credit card terminal and dedicated phone line, freeing up valuable desk space and saving you money
- Manage your account via online reporting, 24/7, with detailed payment transaction reports

Save your dental practice money and reduce the administrative burden of collecting patient payments!

* Visa, MasterCard, American Express and Discover are registered trademarks of their respective companies.

Special Features to Help Your Practice Manage Patient Payments

Card on File

save a patient's credit card on file for future use. It's a patient-friendly method for securing a form of payment from a patient for processing at the time of service, after receipt of payment from the patient's insurance, or for recurring billing. With the system-generated authorization form, obtaining a patient's approval is fast and hassle-free.

Schedule Payments

In the event a patient cannot pay the total amount due at the time of service, the system lets you split that amount into smaller payments the patient can afford.
